

MAX[®] HDMI 2.0 Adapter Extender Cable

The Siemon MAX HDMI 2.0 Adapter Extender Cable offers an easy pass-through connection for extending cables from LCD projectors, monitors and smart screens to an HDMI interface mounted in a Siemon MAX series faceplate. It features a female HDMI MAX connector on one end that is compatible with Siemon MAX series faceplates or modular furniture adapters and a short pigtail to a standard female HDMI connector on the other end. This product supports 4K UHD video and is ideal for use in conference rooms, classrooms or any space requiring an easily accessible interface for connecting laptops, DVRs or other video controllers to ceiling or wall-mounted displays.

Versatile Mounting

Mounts in either a flat or angled position for easy access and can be mixed with other Siemon MAX or Z-MAX outlets.

Front Installation

Installs from the front of the faceplate for easier deployment without faceplate removal.

High Quality Connection

Supports a low loss, 4k signal for UHD video
